OUR COMMITMENT

We have become one of the world’s, and the Middle East’s, leading accountancy and advisory networks over the last 20 years.

Potential clients, currently evaluating their accounting needs in this vital yet complex region, will engage Moore Stephens to answer as many questions that will naturally be raised by international CEOs, boards and management committees.

In our business, longevity reflects reliability and efficiency in particular. The Moore Stephens network, which was founded more than a century ago in London, has grown to be one of the largest worldwide. It now comprises over 650 offices in more than 100 countries.

Our regional network provides a full platform to serve our clients’ international aspirations and cross- border objectives. As the world becomes smaller, so the need for timely down-to-earth expert local and international advice grows. Moore Stephens will show how their research and experience assist clients in their decision-making, both today and for the future.

In the sectors we cover we focus on technical expertise, a commitment to professionalism – and the level of discretion involved – all reflect a proven, practical approach. Subsequently, clients soon appreciate the essential supportive values of Moore Stephens – our collaborative approach, loyalty and investment in creating mutually beneficial long-term relationships.

AUDIT & ASSURANCE

Assurance services and 'adding value' are not usually viewed together, since the primary objective of an audit is to provide an independent opinion on a company's annual accounts.

Moore Global firm members recognise the commercial importance of providing assurance on business controls so that there are no surprises. Equally, they understand the importance of providing assurance advice to help clients develop their business.

The key to a valuable compliance service is the strength of the relationship between the client and the service team.

The three areas in which we excel are:

Communication

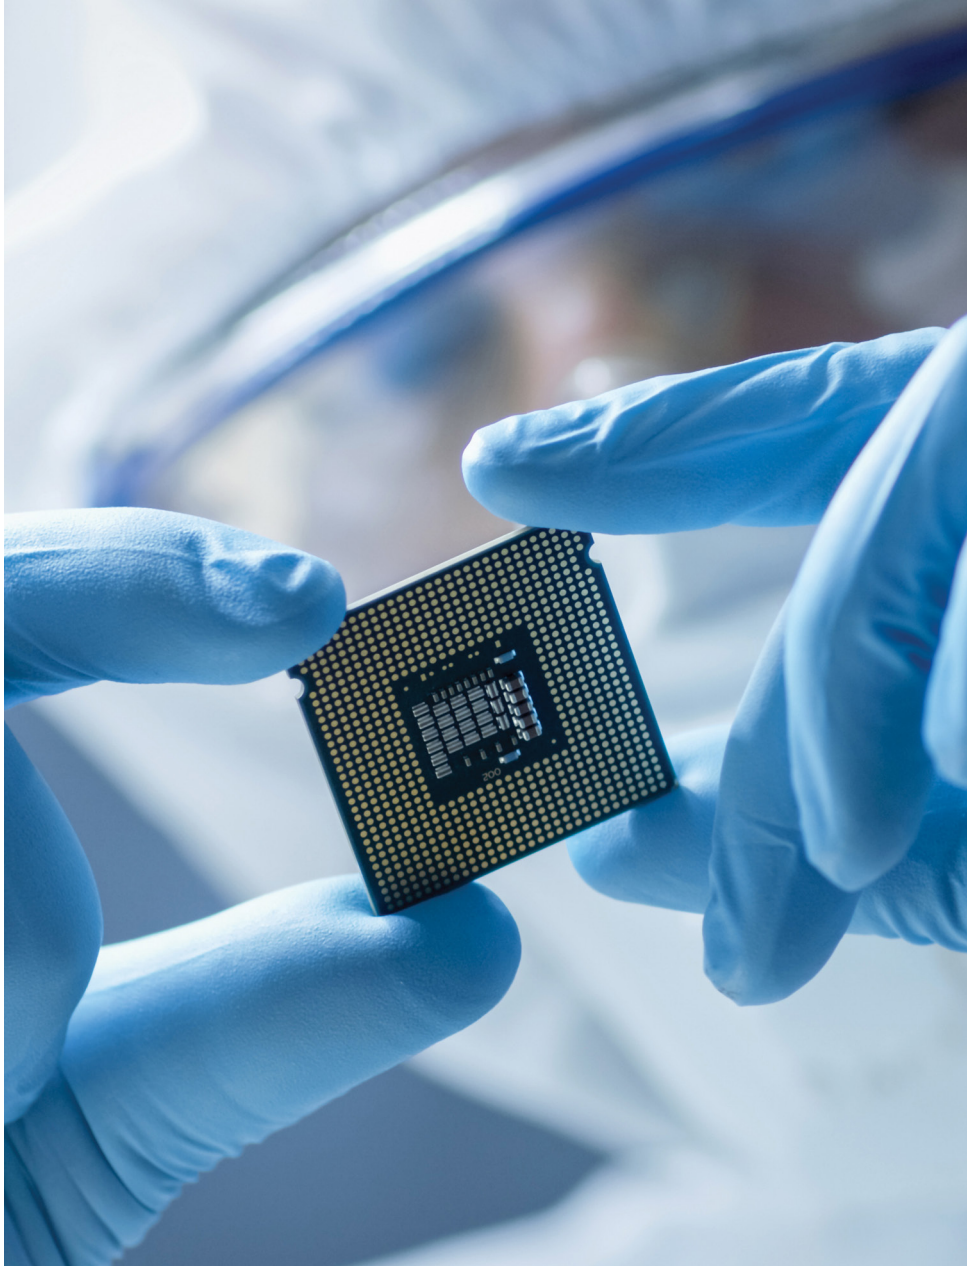

We view communication as a critical component of our service approach and overall business relationship. As such, the appointed Moore engagement team will maintain a continuous dialogue with you. We will keep you informed of relevant accounting and audit updates and business trends that could impact your operations. We include periodic meetings as part of the service we provide, in order to maximize collaboration and communication throughout the audit process.

Integration

We will ensure that you receive totally integrated and efficient service, whereby each specialist works collaboratively with the rest of the team. Specific queries will be considered as part of our service offering as a whole and never in isolation. This will ensure that all information is used to increase the value you receive from our services. Our specialists are used to working together and will communicate regularly to meet your requirements.

Proactive advice

Keeping the client, abreast of developments is a core element in growing our relationship. We will keep you up-to-date with new requirements and industry best-practice through regular email alerts and newsletters, in addition to information about relevant seminars. Just as important, we will raise potential issues as soon as they arise, to prevent them from developing into problems.
